

## **A Small College's Voluntary Environmental Audit Experience**

### **Presenter(s)**

Peggy A. Miller, Saint Mary's College

### **Abstract Text**

In February 2006, Saint Mary's College underwent a voluntary comprehensive environmental health and safety audit. Since receiving the results of the audit, the college has prioritized the findings contained therein and is in a continuing process of acting on the recommendations. This presentation shares the experiences of a small, liberal arts college's ongoing attempt to address various environmental and safety issues.

### **Presenter Bio(s)**

Peggy A. Miller, CHMM, Saint Mary's College

Mrs. Miller has served as the Stockroom Manager and Chemistry Laboratory Coordinator for Saint Mary's College in Notre Dame, Indiana, since 1996. She has taught introductory chemistry for non-science majors, various chemistry laboratory courses and became a Certified Hazardous Materials Manager in January 2007. Mrs. Miller holds Bachelor's degrees in Biology and Chemistry from Indiana University.
