

A Behind the Scenes Look at the San Diego Zoo

What better way to show this wonderful collection than by taking your VIP's on a special "Behind the Scenes" tour? From their private "zoo bus" your guests will get a personally narrated tour that will encompass a large portion of the huge compound. They will enjoy such sights as the Polar Bear Plunge, the African Plains, Cat Canyon and more. During this extensive tour guest will be given the history of the zoo and they will learn about some of the ground breaking advances in animal care that have been made right here in San Diego and how those advances have been implemented in zoos around the world.

What makes this tour truly unique is the fact that your guests will be escorted "Behind the Scenes." They will disembark from their bus and with an experienced tour guide they will be taken to an area, behind the scenes and closed to the public, for a very special up close encounter.

A sampling of behind the scenes areas:

- ⚙ The Giraffe Barn – Here they visit the giraffe bedroom and watch as the tour guide feeds these beautiful animals.
- ⚙ The Bird Yard – Meet some of our fine-feathered friends close up. You will learn about their diets, habits and how the San Diego Zoo is working to help so many birds on the brink of extinction.
- ⚙ The Elephant Barn – Peek into these enormous bedrooms and find out about all the newest methods the Zoo uses to keep both keeper and animals safe.

This is sure to be a memorable day for all your guests, so come and enjoy the thrills and wonders of the World Famous San Diego Zoo.
